

**Build a Beautiful Home....  
Welcome to Low-Carbon Life....**

**Lead-Free UV Coated uPVC Profile**

**SJLP INTERNATIONAL**

## About Us

SJLP International is one of India's leading engineering organization in India. We offers a comprehensive range of high-performance window and door solutions in aluminium and uPVC profiles. These are available in a range of customisable options and are designed primarily for use in homes, offices, and apartments. The secret behind the long-lasting beauty and functionality of our Windows is a combination of great aesthetics and sturdy material. It is what's inside the window frame, what it is made from, and how it is made, that makes our Windows a great choice for your homes and offices. Today, we are one of the fastest growing manufacturers in India who specialise in these fixtures and offer exceptional customer service. Our engineers are well trained and have years of experience in providing top-notch service and in ensuring the satisfaction of our customers. SJLP International Windows offers end-to-end 360-degree solutions viz. design, consultation, glass and frame selection, and installation. We offer the perfect combination of material (uPVC, aluminium) with the best in glass product and hardware fittings. In addition to conventional functions like protection from environment, day lighting, and aesthetics, we also cater to other functionalities like safety, security, noise cancellation, and energy efficiency through our wide product range. Our Noise cancelling windows, Burglar-resistant windows, Solar control windows, Safety glass windows, Monsoon proof windows, and a range of customised benefit windows are produced with exceptional precision and are professionally installed.

## Our Mission

Our Mission is committed to quality, service, value and honesty to all.
